To Whom It May Concern:

SUBJECT: Letter of Recommendation

Mr. Tim Gohr of Eagle Builders was the General Contractor for the Structural Retrofit of the Mt. Whitney Fish Hatchery. He made a difficult project easier and it was a pleasure working with him.

The Hatchery is a ninety year old stone building that required compliance with both historic and seismic requirements. It is located in a fairly remote area of the Eastern Sierras and had to remain open during the retrofit. This required additional planning and coordination on Mr. Gohr's part for the project to run smoothly.

Throughout, Mr. Gohr was always professional and helpful. He was considerate of the Hatchery staff and minimized the impact on them. He was able to anticipate and resolve potential problems before they became major difficulties. Mr. Gohr was always cooperative and collaborated actively to ensure a successful project. The construction site was well managed and always kept clean. Quality and workmanship were excellent.

I recommend Mr. Gohr and Eagle Builders to anyone wanting a talented, experienced and honest contractor for their project.

Thomas E. Pacheco, Senior Architect
