Date: May 6, 2013  
To: Eagle Builders, attention: Timothy Gohr  
From: Nels Roselund  
Subject: Letter of Appreciation

Dear Tim,

I want to express my gratitude to you for the excellent work that Eagle Builders and your crews have done on projects that I have designed for the past more than a quarter-century, beginning with the Cameo Theater on Broadway in Los Angeles, and most recently at old Mission San Miguel, one of the California Missions. You are my contractor-of-choice; you have done the construction on more of my projects than all other contractors combined.

Besides your excellent work, here are other things that I like about working with you:

- ◆ You avoid construction errors by studying and understanding the drawings, planning ahead and asking timely appropriate questions, good questions.
- ◆ You are experienced working with the Secretary of the Interior Standards for Historic Preservation and understand the special needs of historic structures.
- ◆ You are able and willing to mobilize your crew for work at remote locations like Mission San Miguel or Ryan Camp in Death Valley.
- ◆ Your costs are fair and you negotiate fairly.
- ◆ Your workers are skilled, responsive and friendly and are eager to do their work well.
- ◆ The work of Eagle Builders makes us both look good.

Keep up the good work Tim; you can be proud that old buildings in Southern California are in much better condition because of the work of Eagle Builders.

Nels Roselund  
Structural Engineer
